

Empowering
Collaboration
in Digital Health

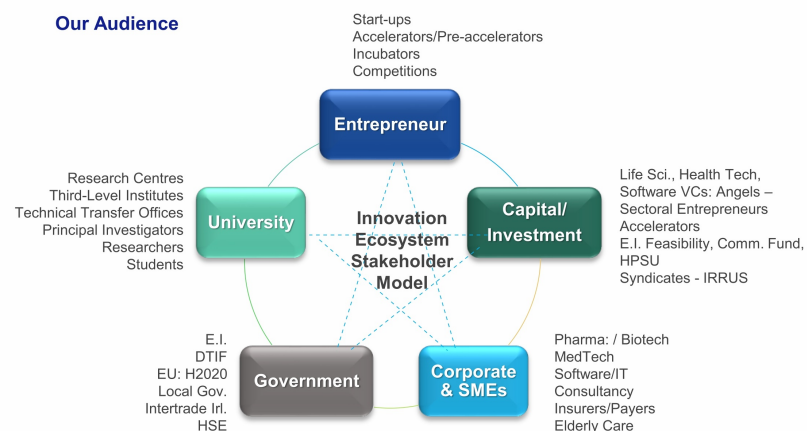

Our Mission

Our aim is to stimulate and enhance growth in Ireland's Digital Health sector through partnerships and knowledge-sharing. We aim to play a major part the transformation of healthcare.

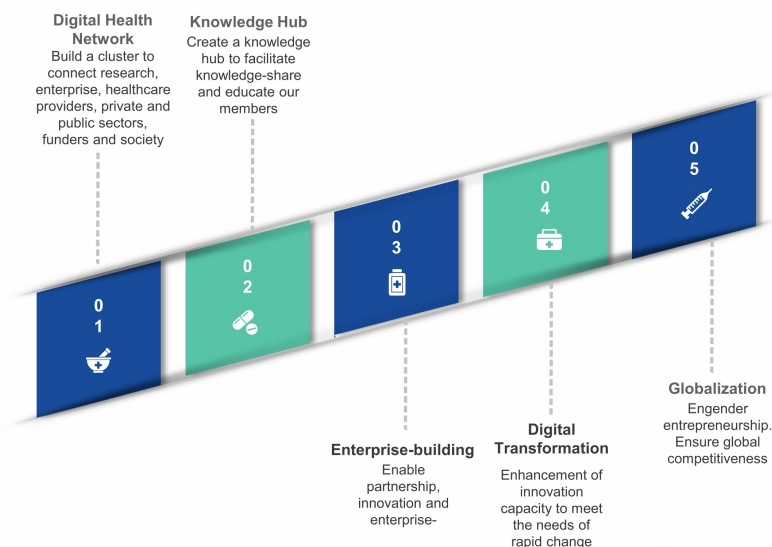

What we do

We stimulate, foster and enhance innovation in Digital Health for creation of enterprises, products and services that address the healthcare needs of society. dConnect is building a bridge between business, the healthcare sector, universities and society. We support start-ups, help commercialize research, and provide larger businesses and investors with access to innovation.
